Have you had a Fire Hydrant service in White Settlement before? Yes No

Please initial each condition below (failure to initial may prohibit the use of the meter):

- _____ A customer desiring to use a fire hydrant meter shall first make formal application with the City Utility Billing Department. A \$1,800 deposit, company and personal information are required to complete the application.
- _____ A representative from the company must sign for the meter when it is picked up. The representative will attest to the meter number, reading, and condition of the meter at that time.
- _____ A representative from the company must email, call in or bring the meter to the City Utility Billing Department each month between the 20th and the 25th of the month for a reading. Failure to do so will result in a \$25 Service call fee on that month's bill.
- _____ A representative from the company must bring the meter to the City Utility Billing Department to close the account. The representative will attest to the meter number, reading, and condition of the meter at that time.
- _____ The customer shall not tamper with, adjust, or repair the meter. Any tampering, attempted adjustments or repairs by the customer or any of his/ her agents shall be cause for cancellation of the contract. In such case, no refund of the deposit will be made.
- _____ Any customer that becomes delinquent on their payment for 30 days or more will forfeit the deposit. The meter must be returned, the account closed, and a final bill for all usage paid.
- _____ Until the time the meter is returned and the account is closed the customer will be responsible for all costs of repairs and/ or maintenance to the meter and attachments.
- _____ The customer shall install a backflow prevention device along with the meter and shall request a 3rd party inspect the device and have results given to the City Utility Billing Department.
- _____ The customer shall allow any City Official to inspect the hydrant meter and backflow prevention device at any time.
